at which time the new cement headgates will be finished, as well as the two miles of new ditch, 20 feet wide, that has been under construction some time. About \$10,000 has been spent by the ditch company this year on improvements, and the capacity of the ditch increased to 14,000 acres. About 7,000 acres will be under cultivation this year. A telephone line from the headgates to the foot of the main ditch will be installed that the farmers may be the better prepared to equitably divide the water.

A postoffice has recently been opened at La Union, N. M., opposite here, and Manley, Elgin appointed postmaster.

A new school house, costing \$2,000, has been built in the town of La Union, and another costing \$5,000 will be built in the district and probably located at a point across the river, about half way between Canutillo and Vinton. Contrary to an erroneous report regarding the New Mexico approach to the Canutillo bridge, two miles of heavy grading was done and a first class turnpike was opened that distance, and has been in use for the past year. Preparations are now being made to top this with five inches of gravel and caliche. This graded approach was extended by opening a road up through the bosque, six miles, to the Chamberino district.

LAS CRUCES CONCERN ABOUT TO BE SOLD

Report That Electric Light Plant May Go to Easterners.

Las Cruces, N. M., Jan. 19.—Another surprise in the local municipal waterworks situation was sprung today when it was announced that the purchase of the Las Cruces Electric Light and ice company was now pending and that the holdings of the local company would be taken over by an eastern concern providing a franchise could be obtained from the town.

J. B. Downey, representing the eastern capitalists, arrived here recently and has assumed the active management of the company's plant. G. W. Morgan, who is expected to arrive here within the next 20 days, will be the permanent manager of the plant, providing the deal is completed. It is said that the intention of the purchasing company is to install a complete waterworks system providing a suitable franchise is granted the company by the town.

The question of granting a franchise to the present company is now being considered by a citizens' committee, a number of which are said to be in favor of municipal ownership of the water plant.

LAS CRUCES EXCITED OVER FIRE ALARM

Fire Damages W. E. Baker's Residence—Owner Is in El Paso.

Las Cruces, N. M., Jan. 19.—The fire alarm sounded this morning at 9 o'clock, it being the first call in several weeks, and attracted everyone to the streets. In the run to W. E. Baker's house, where the fire was, hundreds of school children joined in the excited crowd. The fire had been extinguished by the time the firemen arrived on the scene.

Had it not been for the linemen in Mr. Baker's employ needing an extra shovel it is likely that the house would have been destroyed. As it was, only the ceiling paper was burned, besides the damage done to the contents of the dining room and water and smoke. Mr. Baker is in El Paso and his sons, Stewart and Roy, had gone to school and no one was at the house until the linemen went for the shovel.

Kohlberg's Associates Confident That the Matter Is Settled.

Although it had been expected that the matter of opening West San Antonio street would be a closed issue this morning, the matter has not as yet been settled. The property owners with the exception of E. Kohlberg have all agreed to the arrangements and it is expected that he will accept.

Mr. Kohlberg is confined to his home, and has not given formal consent to the matter, but those who advise with him say there is no doubt but that he will put up the money and that the street opening matter will go through.

E. Kohlberg stated today that he had turned the contract for the street opening over to his attorney, W. W. Turney. Until he was advised what to do by his attorney, Mr. Kohlberg stated that he could not say whether he would subscribe the \$5000 for the street opening or not.
